Geese Plentiful At Opening Of Migratory Season

The duck and goose hunting season is more than one week old and there is little evidence to show that it came at all so far as ducks are concerned. Hunting is reported to be better this year than last but because of previous dry years and the absence of water, it's a far cry from other days.

Bert Freeman, High River Game Officer, covered the area south of the Bow on opening morning and had trouble finding 30 hunters.

Frank Lake, west of Blackie, is down in size this year and has been harboring around 200 grey and white geese, as well as ducks, lately.

In discussing the hunting season Mr. Freeman told of going out to check Frank Lake Sunday evening before the Monday opening and found several cars in the area obviously spotting a flock of geese in a field. Next morning he returned to the same spot to find the geese landing in droves but not a hunter in sight. He asked one of the Sunday watchers why he hadn't come back Monday. "There were so many other hunters around, I didn't think there'd be a chance of getting in Monday", replied the disgruntled hunter.

The duck and goose season is from September 23 to December 14 with the daily bag limit for ducks at five, four of which may be mallards, and possession limit of 10. Hunters are advised to check all items on the summary of Bird Game Seasons and Limits which accompanies purchase of a hunting licence. One regulation stands out though and is, "No person shall hunt any bird game upon or over occupied lands or enter upon such lands for the purpose of hunting, without the consent of the owner or occupant of such land".

Daily bag limits for geese, Gray or White is five with a possession of ten.

Upland season opens at 8 a.m. Friday, October 4, and general reports indicate the country is rich in pheasant and partridge. Estimates place the pheasant crop at up to 25 per cent increase over the successful year of 1962. The season is split again consisting of October 4 to November 2 during which the daily bag limit is three and possession of 25 and from November 4 to November 30 during which the bag limit is raised to five. The one day halt was made to clarify the change in bag limit.

SCOUT-GUIDE ACTIVITIES

Sixteen Scouts spent last weekend at Wyndham Park. The weather was favorable and a good time was enjoyed by all with the exception of two Scouts who lost their food to a stray dog.

A feeder-roast was held at the last meeting, the occasion being the burning of the weeds in the Scout Hall yard. Robbie Ness received his coin collector's badge.

The Guide Company held a Fly-Up Ceremony on September 26, when Eleanor Sokvitne flew up from the 1st Brownie Pack and Kathy Middleton flew up from the 2nd Brownie Pack.

RICHARD EARL

Richard J. Earl who has completed the first year Merchandising Administration at the Southern Alberta Institute of Technology, was awarded the Zellers Ltd. scholarship for high standing in his class. He also received a cash prize from the Queen Elizabeth Education Scholarship Fund for high achievement in his year's work. Richard spent the summer working at Red Deer and has now returned to Tech. at Calgary. Richard is the eldest son of Mr. and Mrs. Victor Earl of Vulcan.

SMOKEY SQUIRREL... ALIVE OR DEAD

Friendly Squirrel Disappears From Tree Home

Smokey Squirrel, Vulcan's friendly little tree climber was caught finally, with a camera a couple of weeks ago. Since last Wednesday he has been missing from his usual haunts however and there is speculation that if he didn't just change his living quarters he may have been caught permanently by some more serious hunter.

Apparently the squirrel came from Ontario via a touring holiday trailer but he didn't leave Vulcan when the trailer did and since has been out of his environment but having a ball. His residence has been a tree beside St. Ald-

helm's Anglican Church and although his travels took him to various parts of town, children usually found him either by the church or over at the elevators, when they had peanuts to feed him.

Ray Wellman, on his way to and from work, has kept an eye on Smokey. In fact when he realized the amount of leg-work involved in these grub trips to the elevators he made a deal with Wheat Pool man Herb Bender who supplied samples of wheat, oats, barley and rye, which were placed under the tree as an experiment to determine his preference be-

fore a bulk order would be shipped.

The grain was never touched and the squirrel hasn't been seen since.

At an early hour one morning recently Dave Mitchell was called by Swede Robertson at the Pioneer elevator where Smokey was visiting in an annex and Dave hurried over to record him for posterity.

Smokey's followers, and they are of all ages, hope he has just changed residences and will pop up in another part of town. Anyone seeing him is asked to report his presence.

Steady Progress Recorded By Credit Union

Since its organization early in 1962, the Vulcan Savings & Credit Union Ltd. has recorded steady progress and at the end of September this year there are 140 members, assets are shown as \$25,000 and loans totalling \$20,000 have been made to 38 members.

A further large increase in both membership and assets is expected before the end of the year.

Credit Union Day was observed the latter part of September. A letter written on this occasion by Prime Minister Lester B. Pearson says:

"Over 60 years ago, a legislative reporter in Levis, Quebec, helped his friends and neighbors to organize his continent's first Credit Union. Today some three million Canadians follow the self-help principles that Alphonse Desjardins advocated.

On October 17th the members of the Canadian Credit Union join fourteen million fellow-members in the United States and another three-quarters of a million in other parts of the world in celebrating Credit Union Day.

I especially commend those responsible for introducing the ideals of self-help to developing nations around the world.

To Credit Union members I extend my warm good wishes for continued success in their endeavours.

A quartet is composed of four people who think the other three can't sing.

Services At Lomond For Alan B. Clifford

A resident of Lomond, Alan Burdon Clifford, aged 51, died at Calgary on Sunday, Sept. 29, 1963, following a brief illness.

Born at Denzine, Sask., he moved to Vermilion, Alta. in 1934 and during World War Two served in the RCAF. Since 1948 he had lived at Lucky Lake, Sask., Brooks and Lomond.

Surviving are his wife, Alice; three sons, John, James and Keith, and one daughter, Marion, all of Lomond; four brothers, Reginald, Robert and Ernest, all of Lucky Lake, and Wilfred of Kitscoty, Alta., two sisters, Mrs. Donald Gordon of Lloydminster and Mrs. Dougald Couch of Lucky Lake; and his father, Robert James Clifford of Lucky Lake. He was predeceased by his mother and one sister.

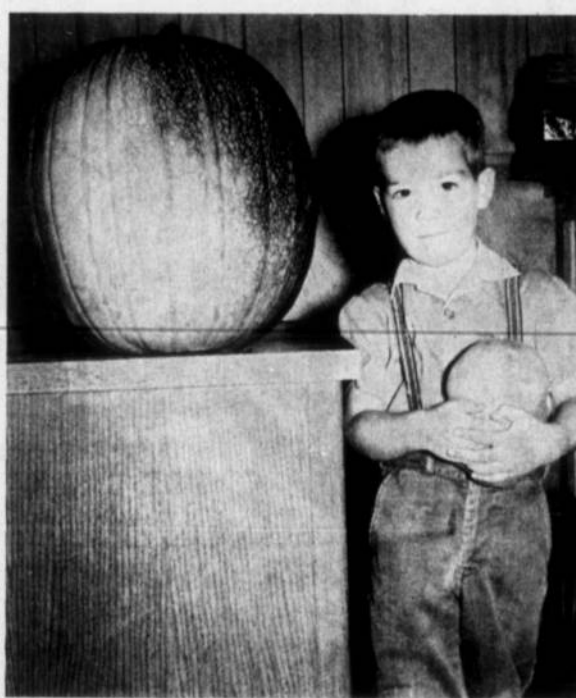

Services were held at the Lomond Lutheran Church on Wednesday, Oct. 2, with Rev. V. G. Cowie officiating and interment was in the Lomond cemetery. Pall bearers were Kjeld Peterson, Harris Caulfield, Floyd Sande, Reg Frost, Hirst Goldthorpe and Ray Beagle.

The Vulcan Funeral Home was in charge of arrangements.

Bulls Can't Read

A stranger approached a farmer, produced his card and remarked, "I am a government inspector and I am entitled to inspect your farm."

Moments later the farmer heard screams from behind the barn. The inspector was being chased by a bull. Leaning over the fence as the madly-running inspector drew near, the farmer cried, "Show him your card, mister, show him your card!"

44-Lb. Pumpkin Illustrates Harvest

It is not only the fields that are yielding booming crops during this harvest season. Gardens in the district are overrun with produce of which one sample is shown above.

Four-year-old Kevin Love will have to grow some before he can handle the 44-pound pumpkin raised at the farm of his parents, Mr. and Mrs. Frank Love of the Berrywater district.

The pumpkin was planted from seed and received only rain for its watering. Other years the Loves have had good sized pumpkins but none to come close to this specimen. That's a three pound Pontiac potato Kevin is holding and back at the farm this summer the

family has been deluged with corn picked from plants over head high.

Mrs. Reg Sansome of Champion called at the Advocate with a Kanabec potato which topped the scales at four pounds, three ounces. They grow potatoes for sale and planted about 6,000 hills during May. Ten potatoes to a hill is not unusual for this year's harvest.

A group of three Netted Gem potatoes have also been turned in from the Harris Matlock farm where "Jo" has the green thumb. These are a sample of the average dug up this year, weighing about four and one-half pounds and will provide for several meals this winter.

than-usual harvest to be completed without frost damage.

Elevator agents at Vulcan estimate that continued good weather this week will see combining of wheat, barley and oats practically completed by Friday and the harvesting of flax about 50 per cent finished.

Just one rain interrupted the harvest season and with the late start most crops had this spring the fine, warm weather enjoyed most of this fall has been a real blessing.

Variation in yields has been greater than normal this year, with wheat running from about 15 to as high as 40 bushels per acre, with the average in the Vulcan district expected to be about 27 bushels to the acre. Yields on all crops have generally been better than expected and granary space is at a premium on most farms.

Former Resident, Mrs. W. Peterson Dies At Calgary

Well known in Vulcan, where she and her husband resided for over 20 years, Mrs. Wilma H. Peterson, 3606 Elbow Drive, Calgary, widow of the late William George Peterson, died at Calgary on Monday, September 30, 1963.

Born at Tornes, Tysfjord, Norway, she came to Alberta in 1914 and lived at Nanton and then Vulcan until moving to Calgary 27 years ago. She was a member of the Sons of Norway Lodge.

Surviving are two daughters, Mrs. Norman D. (Ruth) Lockhart and Mrs. Robert G. (Evelyn) Black, both of Calgary; a son, William G., of Mossleigh; nine grandchildren; four brothers, John and Chris Rutberg, Edmonton, Walter Rutberg, Calgary and Haakon Rutberg, Vulcan; and four sisters in Norway. She was predeceased by her husband in 1960.

Rev. G. Preston MacLeod conducted services at Jacques Funeral Home, Calgary, Wednesday morning, October 2, and interment followed in the Vulcan cemetery at 3:03 p.m.

Trout Die As Dam Emptied

In this part of the province where fishermen often come home with empty creels and where the constant hope is in the replenishment of their sport, thousands of beautiful trout have died recently and more are dying daily through plain unfortunate circumstance.

These fish are dying out at Commodore Allen's dam in the Lake McGregor district and the only benefit is to herds of gulls who, according to Commodore, are "having a field day."

Commodore's dam has been in

past years a popular fishing and picnicking spot for the general public and last year 40,000 fingerling trout were flown in from Spokane, Wash., and trucked to the PFRA dam for commercial fishing when their full growth is reached.

A request for water by other farmers served by the PFRA dam and an accident in the dam gates by PFRA repair crews caused the 960 acre foot body of water to be emptied and with the water went the fish.

Below the PFRA dam in front of Commodore's is a bush and treed area and following the high rush of water fish in large numbers have been caught in branches and left out of water.

Efforts have been made to scoop up the fish and place them back in Commodore's dam but it is described as a losing battle and the stench of dead fish worsens. A screen was set up in the overflow of the dam but this also was not successful. The trout weigh up to 12 pounds.

The new newsletter, "Horizons" for the Anglican Church of Canada was given out. This publication is a digest of church activities both at home and abroad.

The annual bazaar will be held on Nov. 19, and anyone wishing to make donations of handwork and baking may contact Mrs. Lenora Baldwin or Mrs. Alice Knight. As the regular meeting for October falls on Hallowe'en night it was suggested the hostess choose a suitable time so it can be announced beforehand. Following the business meeting, lunch was served and the meeting closed with prayer by the rector.

QUEEN DRAMETTES

A letter from F. M. McCallum, district president of the Alberta Drama League, has been received by Mrs. Barbara Hwozdecki, director of Carmangay Queen Dramettes, in which he tells that they are anxious for the group to participate in the Junior Provincial One-act Festival.

This would be good experience for the girls and they are seriously considering entering the Festival which will be held in Lethbridge, Nov. 2.

The play they would enter is called, "You Ain't Heard the Half of It." This one-act comedy is being prepared for at twice a week rehearsals in the community hall. It is hoped that the Carmangay people will be interested in this Teen-age Drama Club and support their efforts. A decision will be made known on whether the Dramettes decide to enter the competition.

Meteor Custom 4-door sedan, one of the Ford Family of Fine Cars made in Canada.

Certain features shown or mentioned are optional at extra cost.

In size,
in performance,
in luxury,
in value,

METEOR
makes it big for '64

To understand the difference between the '64 Meteor and all other cars in the low-price class—you must understand one thing. Meteor is a bigger car. It is bigger in size, bigger in performance, bigger in luxury and bigger in value.

Its big 215.5 inch length straddles the bumps better—to eliminate regular dip and dive. Add to this the only suspension in the low-price class that lets wheels move backward and forward as well as up and down and you really get big car riding comfort.

Meteor's extra wide stance means better stability—you don't have to fight with the car when you're cornering.

And all this extra size means more leg and knee room, more hip and shoulder room—more headroom.

In luxury, Meteor really makes it big with the most distinctive roofline in the automotive world. Notice the way it's tucked in out of the

weather. As a power option you can have the window go up and down to give you Breezeaway ventilation all year 'round.

Meteor's power is bigger this year—ranging from an exciting 390 cubic inch V-8 down to a really energetic six.

All these big features and many more like big wide opening doors, big stronger frame, a big 24,000 mile or 24 month total-car warranty—make Meteor the big value standout for 1964. See it now at your Mercury dealer.

Health Picture Improves

Despite the vast strides that have been made by medical science in recent years, there are still many health problems to be overcome in Canada. The Canadian Pharmaceutical Association, quoting the Health League of Canada, notes that "Cardio-vascular diseases constitute the most serious threat to the health of Canadians today. Cancer is the second largest killer, after heart disease, and arthritis is one of the three leading causes of physical disability. Diabetes ranks fifth as a cause of death in Canada."

Many communicable diseases which were once rampant in many parts of Canada have now been virtually eliminated or brought under control. Canada is fortunate in that it has no diseases which are endemic to the country as a whole, nor do we have the epidemics that were once so prevalent. The Canada Year Book, reporting on certain notifiable diseases, said, "It will be noted that, for the first time, no information is carried on such diseases as chickenpox, mumps, measles and German measles. The incidence of these diseases is not now reportable since they no longer constitute a serious health problem in Canada."

However, warns The Canadian Pharmaceutical Association, which represents professional pharmacy in Canada, this encouraging improvement in our health pictures does not permit complacency. The association is urging Canadians to follow this six-point program to ensure continued good health: Regular medical and dental checkups; Follow a proper diet; Take regular exercise; Get adequate rest; Follow an immunization program; Avoid undue mental stress.

Medical science has new tools, new techniques and insights, new drugs that were undreamt of a generation ago. Many diseases which once were inevitably considered fatal can now be controlled, enabling their victims to lead relatively normal lives.

"Good Health is Priceless" is an old cliché. Medical science can do much to return the ill to good health. But we can also do much to help ourselves and the suggested program by The Canadian Pharmaceutical Association is a step in the right direction.

Three pheasant Sunday dinners are shown above just before their release Tuesday, Sept. 24, in the Vulcan district. From left to right are Jerry Pelchat, Superintendent

of the Brooks Hatchery, Bert Freeman, High River Game Officer and Glen Dahl, president of Vulcan and district Fish and Game Assoc. These are part of 550 surplus cocks made available to the Alberta Fish and Game Assoc. and it was through local Fish and Game efforts that the local release of 100 was made.

200 Pheasants Released

The pheasant population in the Champion and Vulcan districts jumped by 200 cocks on Tuesday, September 24. These were part of 550 surplus birds at the Provincial Game Hatchery at Brooks, which were released, 100 to Vulcan and 100 in the Champion area.

Superintendent Jerry Pelchat of the Game Hatchery and High River Game Officer Bert Freeman trucked the birds over late in the afternoon and they were released from their crates, disappearing quickly in every direction. The remainder of the 550 surplus birds have been sent to Taber, Chin and Medicine Hat.

Mr. Pelchat explained these pheasants are sent out strictly as a bonus for hunters. They are banded though and the only record the hatchery would like is the date they were shot, location and band number. The band may be kept by the hunter. This information should be turned in to Frank Jepps, secretary of Vulcan and District Fish and Game Association, and it will be relayed to the Hatchery.

About 4,500 birds have been distributed this year in the ratio of one hen to one cock, in addition

to these extra 550. Most have gone into the central part of the province and in the past, efforts have been made to stock northern areas of the province but with little success, because of severe winters. The superintendent estimated over 100,000 pheasants have been raised at the Brooks Hatchery since its opening in 1945.

These birds are 12 weeks old, are well colored and have no trouble fending for themselves out of captivity. If released in an already heavily populated area they may be driven out by native pheasants and there may be a normal loss to predators, but generally, hunters can count on 100 extra birds this year, but not all in one spot. Previous experience indicates released birds may travel up to 14 miles in a matter of days.

Estimates of pheasant population in various parts of the County range from an increase on 15 to 25 per cent this year, with a jump also recorded in partridge, so it looks like a promising season for upland birds, starting this Friday, October 4.

Many young birds have been seen this year and are still hard

to distinguish. Mr. Pelchat describes this not as a second hatch but as the result of re-nesting by the hen pheasant. Mr. Pelchat said pheasants rarely produce two hatches but that if a nest was destroyed they would rebuild and begin again.

At the Brooks Hatchery 600 hens and 75 cocks are retained for the next season, with the breeding ratio being one cock to nine or ten hens.

LOMOND

To date the search for Axel Nielson of Lomond has been unsuccessful. Axel disappeared from Vulcan where he was taken for medical attention following an accident on the Lomond road east of Vulcan on Friday evening Sept. 20. He is believed to be suffering from amnesia. The people of the Lomond district wonder if there should not be a picture on the front page of the Calgary and Lethbridge papers for several days in a row. Its very easy to miss or just overlook a picture otherwise. Meanwhile it is the hope and prayer of all that Axel will soon be located.

Mrs. Ralph Richardson and three younger children of Berrywater were visitors Monday and Tuesday of last week at the home of the former's parents, Mr. and Mrs. L. Chase.

Miss Sherry Huff of Calgary was a weekend visitor at the home of her parents, Mr. and Mrs. Henry Huff and family.

The Lomond AYP group sponsored a very successful dance at the Lomond Community Centre on Friday evening, September 20, proceeds of which were presented to Rev. Cowell to be used for the Hong Kong Mission.
